

**Interested in improving the availability, quality and efficiency of local transportation services for older adults, people with disabilities and/or individuals with lower incomes?**

**We can help.**

Improving access to transportation for all community residents starts with a coordination plan. Coordination strategies as simple as information sharing, reciprocal customer referrals, shared maintenance or joint training programs can improve performance and lead to significant reductions in operating costs for transportation providers. For many providers, increased coordination can enable them to serve more customers and/or offer a higher level of service at the same level of expenditure.

Under the auspices of the Central Yavapai Metropolitan Planning Organization (CYMPO) and Northern Arizona Council of Governments, a Local Coordinating Council has been organized to develop and implement transportation coordination strategies within the greater Prescott region. The ultimate goal of this program is to expand local transportation options and thereby increase the number of people served, and the number of rides provided.

The various coordination strategies being implemented locally are outlined in the 2020 Yavapai Passenger Transportation Study. Territorial Transit and Central Yavapai Transit Foundation are two of many local partners working with CYMPO, NACOG and the Local Coordinating Council to expand mobility options for area residents. We invite local transportation providers and other stakeholders to join the effort and assist in implementing those coordination strategies which are most appropriate for our region. For information on the Local Coordinating Council, or the Mobility Management Plan, please contact Mobility Management Planner Tod Morris at NACOG at (928) 213-5236. For more information on local transportation options, please contact Territorial Transit or Central Yavapai Transit Foundation at (928) 776-9332 or e-mail us at territorialtransit@gmail.com or CentralYavapaiTransitFound@gmail.com.

Groome transportation also has offices in Phoenix, Tucson, Flagstaff and Sedona.

**Uber and Lyft** are ride hailing or ride sharing services that allow people to request rides to and from the location of their choice using a smart phone application. Users download the "app", create a profile and securely add payment information. To request a ride, simply enter your pickup location and destination. Once matched with a driver, you'll see their name, car information and location which makes identifying your ride easy. Payment is processed automatically through the app, and the price is calculated and displayed in advance, so you'll know the cost of your ride before you confirm it. If you don't have a smart phone, you can try Go Go Grandparent which is a service that allows you to use any touch tone telephone to make Uber or Lyft ride arrangements or delivery arrangements like doordash or instacart. Memberships to enroll in the service start at \$9.99 a month. In addition to the Uber, Lyft or delivery fee, Go Go Grandparent charges \$.27 a minute for the phone call to book the ride. Call 1-855-464-6872 or sign up online at [www.gogograndparent.com/register](http://www.gogograndparent.com/register).
